Firenze Euro City Race Tour

Cosa era richiesto:

- 1. **Concept Ideas** The City Race European Tour 2016 will be an Orienteering league with 7 races in major European cities. Ranking model has a special final race to be held by a different city every year. The main goals are the following:
 - o Attract more participants by cross-marketing events;
 - o Leverage increment in visibility to attract more sponsors;
 - o Consistently increase the quality of all organizations within the league;
 - o Offer a touristic approach to orienteering city races across Europe;
 - o Share and leverage resources between events.

Firenze Euro City Race Tour

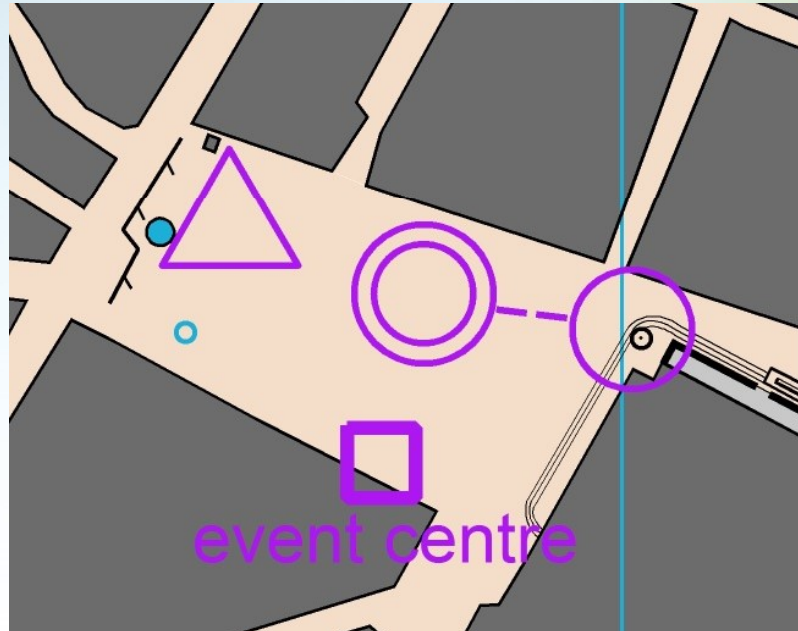

- 2. Race model** Races can have one of the following formats that will be chosen by each organization: Middle-Long distance in urban environment; All Maps following ISSOM rules (Sprint Maps). If possible, races should be complemented by another race taking place the day before or after, such as an Ultra sprint, a park race, a forest race or another urban race. This adds particular value to “urban race tourists” travelling from other parts of Europe. In general, the “headline” race, which is part of the tour for ranking, would only take place on one of the two days.

Firenze Euro City Race Tour

Hi!

I just wanted to say thanks to everyone involved for a great weekend (please pass it on to your team) and for giving us the excuse to finally visit Firenze for the CityRace.

From the man greeting us all while collecting bibs through to the folk handing out fruit and drinks, everyone was very relaxed and smiling all the time and I liked the way that everyone got a mention and a cheer as they finished and not just the Elite.
