Italian Cup 2017 - 3rd & 4th stage

19th – 21st May 2017 Asiago Plateau Turcio – Marostica – Monte Corno

GREETINGS

On behalf of A.S.D. Erebus Orientamento Vicenza, I am very glad to welcome all of you once more to the Asiago Plateau for the 17th edition of the Highlands Open. After a successful first edition earlier in 2008, Latin Countries national team will come back to Asiago to fight hard and give all their best in order to conquer the prestigious Latin Countries Cup. In addition, in the same races, orienteers from every Italian region will struggle for points for the final classification of the Italian Cup.

We could not honour this exceptional event better than by giving you the opportunity to discover a great variety of places: from the well-known Turcio technical forest, to the fast sprint town of Marostica and to the newly mapped Monte Corno, an extremely demanding area never used for orienteering before.

Everything is set now and the Highlands are only waiting for you!

I hope that our efforts will be appreciated and that you will enjoy your races at their best.

Good luck to all of you!

PUNCHING SYSTEM

-SPORTident punching and timing system will be used towards the entire event. At the control point you will find, together with the flag, a SI-unit to be punched and a backup pin punch to be used if SPORTident fails (in this case you must punch on the map).

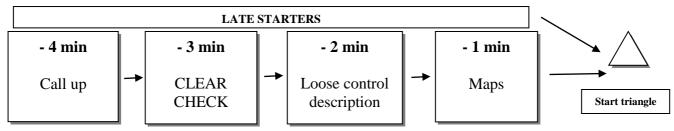

-Athletes may either use their own SI-chip or rent it at €1,50 each day (you will also need to leave your ID as a caution). If you use a rented SI-chip, you must return it at the IT tent after completing your last race; failing to return the chip or missing it will result in a 30 € fine

START & FINISH PROCEDURE

- -Athletes will be called by a start judge at the 1st pre-start box 4 minutes prior to their start time, we recommend you to be on time
- -They will then go ahead to the -3 minutes box, in which it will be possible to CLEAR and CHECK the SI-chip
- -Next, at the -2 minutes box, loose control descriptions will be available; a staff member will help you in case you need it
- -Moving on to the -1 minute box, athletes will have to place in front of their class's map box without taking the map; a start judge will check that the correct procedure is followed by every athlete. Here, in case of bad weather and if you wish so, you can also cover your map with a plastic bag (maps will be printed on water-proof paper anyway).

Please note that Latin Countries Cup classes will have a separate map box, marked by a panel indicating the class in a light blue background

- -The countdown starts at -5 seconds with 5 short beeps, followed by a longer beep which is the start signal: athletes will then be able to pick up their map and advance to the start triangle
- -In case an athlete is late, they will have to follow a separate corridor and report it immediately to the start judges

- -Approaching the finish line, every athlete should be ready to punch the SI FINISH unit; their finish time will be determined by the SI unit punch
- -Then every athlete will have to move on immediately to the IT tent, just near the finish, to download the SI-chip; in case of mispunches, they will be given explanations of their faults.

EVERY SINGLE ATHLETE, even if intentioned to withdraw, MUST COME TO THE IT TENT TO DOWNLOAD THE SI-CHIP!!

KINDERGARTEN

A kindergarten service for children and toddlers will be available during the races on Saturday and Sunday.

Terrain

Classical karst terrain, rich in rocky details, depressions and pits; not very hilly in general, with some moderately steep slopes for the longer courses. Runability is generally quite good, as well as visibility, except in some limited areas where the navigation speed may be reduced

Special notes

- -As previously communicated, some classes will be merged according to the n° of athletes entered; information about the precise classes affected will be published on www.erebusvicenza.it/highlandsopen after the entry deadline expires. These merges will not affect Latin Countries Cup classes
- -Parking available near the Arena and in front of Rifugio Turcio
- -The Start area is 10 minutes walk from the Arena
- -It is strictly forbidden to cross the northern road during the race (it represents the northern border of the map)
- -In a limited area in the north-eastern part of the map, deforestation has been performed very recently; pay attention to the branches on the ground that can sensibly reduce the navigation speed. The area will not be marked on the map, but you will be able to see its extension at the Start area
- -There is a great variety of rocky pits, few of them very deep; the most dangerous will be taped on their perimeter in order to make them immediately recognizable
