

## Mapping Notes

The competition area has a dense network of paths, old paths, forest cuts and old traces of deforestation; on the map all the paths or traces of deforestation that are clearly visible on the ground are marked as 'path' or 'track'.

**829 Narrow ride or linear trace through the terrain, permitted to ride: slow riding (L)**  
 A forest ride or a prominent trace (forestry extraction track, sandy track, ski track) through the terrain which does not have a distinct rideable path along it, slow riding.  
 Minimum width: 0.9 m (footprint 13.5 m).  
 Minimum length (isolated): 2 dashes (3.4 mm – footprint 51 m).  
 Colour: orange (60% magenta, 100% yellow).  
**On the printed map a clear colour differentiation must exist between this colour and yellow 100%.**

The symbol 'Narrow ride or linear trace through the terrain, permitted to ride' indicates the tracks that are no longer used: old paths not used for years, old logging tracks, extremely rough logging tracks, forest cuts; sometimes it may not be immediate to follow the trail: pay more attention in taking these elements

and also in following them. Meadow edges are also marked with this symbol.
