OUR SPECIALTIES

At Trimtex, you are always supported by a dedicated customer manager. We do not use AI in customer communication, as personal follow-up ensures better flow and confidence throughout the entire design process.

Sustainability

We work purposefully on how Trimtex can become part of the solution, and not the problem.

Club design

All logos and designs are printed directly into the fabric/material. This means no additional costs for printing – everything is included in the price.

Ordering

The minimum order is 5 pieces per product, and within one order you can mix women's, men's, and junior sizes.

Direct supplier

We are a direct supplier without costly intermediaries, with production based in Europe.

From January 2026, Trimtex will be the main sponsor and official supplier of national team apparel for Norwegian Orienteering.
